PROFESSIONAL SUMMARY

Full-stack Software Developer experienced in developing scalable RESTful APIs using Laravel and .NET, along with cross-platform mobile applications built with Flutter. Skilled in building end-to-end systems by integrating backend services, mobile applications, and frontend technologies. Focused on clean code, maintainable architecture, secure authentication systems (JWT), and performance-oriented development. Experienced in working on production environments, improving existing systems, and contributing to scalable software solutions.

EXPERIENCES

FERISOFT YAZILIM

09/2025 - 03/2026

Full Stack Software Developer

- Designed and developed RESTful APIs using Laravel to support mobile and web applications.
- Implemented secure authentication and authorization mechanisms using JWT.
- Structured and optimized database schemas to improve data integrity and long-term maintainability.
- Developed Flutter-based mobile interfaces integrated with backend services.
- Refactored existing modules to enhance code quality, scalability, and performance.
- Collaborated with cross-functional teams to deliver production-ready features.
- Utilized RabbitMQ for asynchronous task processing and system decoupling to improve scalability.

DEFACTO TEKNOLOJİ

08/2024 - 09/2024

Android Kotlin Mobile Developer Intern

- Developed user-friendly Android interfaces using Kotlin.
- Integrated backend APIs to ensure secure and efficient client-server communication.
- Contributed to improving application performance and navigation flow.

CSI TECHNOLOGIES

07/2023 – 08/2023

Flutter Mobile Developer Intern

- Developed cross-platform mobile applications using Flutter.
- Integrated RESTful APIs into mobile applications.
- Improved UI/UX flow and implemented state management solutions.

MACELLAN

10/2022 – 12/2022

Backend Developer Intern

- Developed MVC-based web applications using Laravel.
- Designed and implemented RESTful APIs.
- Performed database modeling and backend integration tasks.

SKILLS

Backend & Messaging: Laravel (PHP), .NET, Java Spring Boot, RESTful API Development, RabbitMQ

Mobile: Flutter (Dart), React Native, Kotlin

Frontend: HTML, CSS, Bootstrap, JavaScript

Database & Tools: MySQL, PostgreSQL, MongoDB, Git, Postman, Swagger / OpenAPI

Architecture & Concepts: MVC, MVVM, BLoC, JWT Authentication, State Management, API Integration, Asynchronous Messaging, Clean Code Principles

LANGUAGES

Turkish - native
English - C1
German - A1

PROJECTS

ClubSpin

Flutter, Dart, Local JSON

[App Store](#)

Developed a cross-platform football team randomizer featuring multiple game modes, balanced team selection and predefined pools. Managed local data for 200+ clubs across 11 leagues and implemented rating-based selection logic. Designed responsive mobile interfaces and published the application on the App Store, with the Google Play release pending.

Ne Yesem?

Flutter, Dart, Laravel, PHP, MySQL, REST API, JWT, BLoC

Developed a full-stack recipe discovery and cooking assistant application using Flutter and Laravel. Built a RESTful API with JWT authentication, refresh tokens, email verification and role-based authorization. Designed database structures and CRUD operations for recipes, categories, ingredients, favorites and ratings. Developed the mobile application using BLoC architecture, including authentication, recipe discovery, favorites and profile flows. App Store and Google Play releases are currently pending.

COURSE & CERTIFICATES

Flutter Mobile App Developer Course – Certificate of Achievement

01/2024

İstanbul Ticaret Odası SoftITo Yazılım-Bilişim Akademisi

EDUCATION

ISTANBUL AYDIN UNIVERSITY

Bachelor's Degree, Computer Engineering (English)

2019 - 2025

PROF. DR. NABI AVCI FEN LİSESİ

High School Diploma

2014 - 2018
